## EDUCATION

### St. Petersburg College "Primorsky"

2022 — 2025

Digital Information Processing  
Specialist

### Secondary School, Saint Petersburg

2012 — 2022

General Secondary Education (10 grades)

### Self-education

2023 — present

Python, automation, web development

---

## SKILLS

### Languages

Python · JavaScript

### Frontend

React · TypeScript · HTML · CSS

### Backend

Express.js · Node.js · REST API · WebSocket

### Databases

PostgreSQL · Drizzle ORM · Google Sheets API

### Python / Automation

Selenium · OpenCV · PyQt5 · EasyOCR · Tesseract

pyTelegramBotAPI · Requests · Pillow · aiogram · Jinja2

### Tools

Git · GitHub · Google Apps Script · Railway · Excel · Word · Kiro · OpenAI Codex · Qwen

### Focus areas

Automation · Parsing · Telegram bots · No-code tools · Web scraping · Vibe coding

### Languages (spoken)

Russian — Native · English — Basic

---

## LANGUAGES

## About me

---

Self-taught developer from Saint Petersburg, 21 years old. Started with HTML on Blogspot, worked up to Python, React and TypeScript — all through practice, personal projects and AI tools. I build things that actually work: automation, Telegram bots, no-code builders — via vibe coding with Kiro, Codex and Qwen. Also run channels on Telegram and VKontakte — philosophy, politics, service monitoring. Into philosophy and nature — swamps, forests, rivers.

## Key Achievements

---

- Telegram Bot Builder — visual no-code Telegram bot builder with drag-and-drop and Python code generation (13 GitHub stars)
- game-bot — Telegram bot with games, transfers and promo codes, 454 tests (pytest), built on commission
- fluffy-computing-machine — support bot for a VPN service with a ticket system, built on commission
- ScriptMaster — web task automation system with GUI, Telegram bot and captcha recognition (17 methods)
- Sheets Monitor — serverless website monitoring web app via Google Sheets, free to run
- TikTok @fedor.abakumets — 33K followers, 633K likes (account deleted)
- Telegram political archive channel — mentioned in content with hundreds of thousands of views
- Running themed channels and groups on Telegram and VKontakte (philosophy, politics, service monitoring)

## Experience

---

### Telegram Bot Builder (personal project) — Fullstack

2024 — present

#### Developer (vibe coding)

- Main ongoing project — visual no-code Telegram bot builder, conceptually similar to n8n but focused on Telegram
- User drags nodes onto a canvas, TypeScript + Jinja2 generate ready-to-run Python code (aiogram)
- Code can be copied or the bot can be launched directly in the browser tab — no local setup needed
- Built the full stack — React + TypeScript frontend, Express.js backend, PostgreSQL + Drizzle ORM
- Added support for media, keyboards, conditional logic, JSON config, analytics and Railway deployment

*React, TypeScript, Express.js, Node.js, PostgreSQL, Drizzle, Python, Jinja2, aiogram, JSON*

### Freelance projects — Telegram Bot Developer (vibe coding)

2024 — present

- game-bot — Telegram bot with Minesweeper, dice, user-to-user transfers, promo codes and admin panel
- Full architecture with DI (ServiceFactory), SQLite, FSM, middleware — 454 tests (pytest), 100% handler coverage
- fluffy-computing-machine — support bot for a VPN service with ticket system, request categories and admin rating
- Both projects built from scratch for specific client requirements

*Python, aiogram, SQLite, aiosqlite, Pydantic, pytest, FSM, Dependency Injection*

### Personal projects — Developer (vibe coding)

2023 — present

- ScriptMaster — automation system with GUI (PyQt5), Telegram bot and captcha recognition (17 methods)
- Sheets Monitor — serverless website monitoring web app via Google Sheets

**Russian**

Native

**English**

Basic

*Python, PyQt5, Selenium, OpenCV, EasyOCR, HTML, CSS, JavaScript, Google Sheets API, Google Apps Script*

**Social media — Content Manager / SMM**

2020 — present

- TikTok @fedor.abakumets — curated political content, sourced material from Telegram and other channels, published photos and videos — 33K followers, 633K likes (account deleted)
- Telegram "Philosophical Library" (t.me/Philosophical\_Library) — sourced philosophy books online, edited posts with AI, published — 335 subscribers
- Telegram political archive (t.me/pbtc\_russ) — 76 subscribers, mentioned in content with hundreds of thousands of views
- VKontakte @fedor\_invest\_channel — 399 subscribers, monitoring lotteries, faucets and like exchanges

*Content, SMM, Telegram, VKontakte, TikTok, AI editing*
